

## FIELD OBSERVATION NOTES

### PGA Blvd. WB OFF-RAMP and A1A

The recent constructed traffic signal north of this intersection will be activated on November 3, 2008.

### Military Trail and Grandiflora Road

The northbound Military Trail outside thru lane experiences very long queues starting at the entrance to William T. Dwyer High School and extending south for approximately 1,500 feet. This queue creates a major conflict with the eastbound and westbound traffic at Grandiflora Road turning left or going straight thru. During the morning count at least one major swipe accident almost occurs. The total length of time for this queue was from approximately 7:15 AM to 7:28 AM.

### Central Boulevard and Grandiflora Road

No field observation

### Central Boulevard and Toney Penna Drive

No field observation

### Jog Road and Hood Road

No field observation
